

Xerox® EX-i 280 Print Server Powered by Fiery® v2.1

SPECIFICATIONS

The Xerox EX-i 280 Print Server for the Xerox® Versant® 280 Press delivers world-class colour output and integrated tools to build an efficient, profitable workflow.

ACCURATE, CONSISTENT COLOUR

Fiery Edge™ profiles deliver stunning colour with the smoothest colour blends, maximum shadow details and superb image definition.

Fiery Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver smooth vector gradients that will delight your customers by printing with the true appearance designers intended.

TURN UP THE IMPACT WITH PERSONALISATION

With the included Fiery FreeForm™ Create application, you can quickly and simply personalise existing files for free – with no additional VDP software required. Add variable elements such as text, images or barcodes with just a few clicks.

SIMPLIFY AND STREAMLINE YOUR WORKFLOW

Automate job submission and eliminate repetitive workflows for faster, error-free printing with Fiery Hot Folders and Virtual Printers. Take advantage of Fiery presets to save time when submitting jobs.

MORE ROI WITH HIGHER PRODUCTIVITY

Print large and complex Microsoft® Office documents, PowerPoint® files and colour-critical PDFs accurately and quickly. The Fiery server improves throughput and productivity by printing one page while processing subsequent pages, and by storing processed pages in memory before printing.

CREATE PROFESSIONAL PRINTED MATERIALS QUICKLY AND EASILY

Produce professional materials in just three simple clicks with Fiery VUE, a free 3D “visual print application” that guides you through an interactive and intuitive workflow – ideal for applications such as printed presentations, booklets, sales guides and training manuals.

TAKE IT TO THE LIMIT

Add the Xerox All Stocks Rated Speed (ASRS) option, and print 25% faster on every stock up to 400 gsm. The Xerox upgraded IDM/ASRS Decurler Module now makes speed and value possible. Build a more profitable future faster with the ASRS option and the Xerox EX-i 280 Print Server.
