Xerox Mobile Print Solution
Best Mobile Print Solution

- Xerox Mobile Print Solution allows mobile workers to print directly from their mobile devices and retrieve documents at a Xerox-enabled MFP with a secure confirmation code
- Complete some tasks entirely at the MFP, including retrieving documents on a network without a computer
- Supports an array of file types including: Microsoft Word, Microsoft Excel, Microsoft PowerPoint, PDFs, Text and rich text files, JPG image files, and HTML email
- Users can apply printer settings at the MFP as if they were printing from their desktop
- All documents are secure and only printed after the user enters the confirmation code on the device, thus providing security for sensitive documents
